PROFILE

Innovative, passionate and detail-oriented front-end developer with 1.5 years of experience in responsive website design.

Ambitious problem-solver with communication skills and proficiency in utilizing front-end development tools, such as HTML5, CSS, React, Next.js, and JavaScript.

EXPERIENCE

WeCycle (Recycling Education App)

Designer, Developer

January 2021 - May 2021

- Created a responsive application that explains how plastic is affecting people, environment, and animals divided into marine, landfill, and city using Next.js
- Provided recycling information for students education
- Designed a user-friendly and responsive layout that provides interactive quizzes about recycling to educate students

MyLandlord (Landlord Rating Web Application)

Front-end Developer, UI/UX Designer

September 2021 - December 2021

- Developed an application that shows gathered information of users' near landlords and provided the rating system to tenant using Next.js and Material-UI.
- Implemented user testing with the low-fi and high-fi prototype for a user-friendly layout
- Built core feature that is interactive with users through their review database using MySQL with back-end developers
